WHY SEO IS IMPORTANT

In recent years, the marketing landscape has undergone rapid changes, significantly transforming the way businesses reach their customers. Gone are the days of capturing easy leads from local YELLOW PAGE ads, newspapers and magazines. Google and other search engines are now the modern day YELLOW PAGES, making access to the information we need quicker and easier to obtain than ever. Access to limitless technology has empowered today's consumer, enabling them to make informed and selective decisions faster than ever before.

Today's consumer is busy, distracted and inundated with a constant stream of marketing messages, news proliferation and a barrage of emails daily. This is why it is more important than ever that your business is able to cut through the noise, allowing your customers to find you as quickly and easily as possible. At the present time, 80% of consumers are now searching for local business information online & this will only continue to grow. As a business owner, you need to be a part of this.
